**Eagle Network Solutions Receives Missile Defense National Team
Contract Award from Lockheed Martin**

Burlington, VT/ Washington D.C. – Vermont based Data Networking and Telecommunications firm, Eagle Network Solutions has been selected by Lockheed Martin to participate in the Missile Defense National Team

“This is a great opportunity for us” said Chris Althuis, Director of Engineering for the Burlington, Vermont based ENS. “MDNT is a challenging environment where our people can learn and grow exponentially. This project rests on the back of some of the most advanced networking environments in the world.”

About Eagle Network Solutions:

ENS is a Burlington, Vermont based technology engineering and research firm with a focus on critical voice, video, data and convergent networks. A unique compliment of extensive process-based laboratory research experience with extensive field-based practical deployment, operations and maintenance allows ENS to employ a comprehensive approach to any network-centric solution. Deep expertise in emerging technologies and the integration of these technologies with existing infrastructure keeps ENS poised to design, test and build networks capable of delivering robust, secure and dynamic data and media content. ENS solutions revolve around open standards of interoperability suited to the development of joint tactical platforms of communication.
