Eagle Network Solutions Engineer Joins Lockheed Martin Missile Defense National Team

Burlington, VT/ Misawa, Japan June, 2006 – Vermont based Data Networking and Telecommunications firm, Eagle Network Solutions' Engineer Robert Tanner has joined Lockheed Martin's Missile Defense National Team.

“Lockheed Martin is an excellent business partner, and the MDNT is a group of innovative and intelligent individuals and companies working towards a common good: the security of the United States,” said Jason Zuliani, partner at the firm.

About Lockheed Martin Missile Defense

Lockheed Martin is a global leader in the design, development and production of missiles and missile defense solutions for the United States and its allies around the world.

About Eagle Network Solutions:

ENS is a Burlington, Vermont based technology engineering and research firm with a focus on critical voice, video, data and convergent networks. A unique compliment of in-depth process-based laboratory research experience with extensive field-based practical deployments allows ENS to employ a comprehensive approach to any network-centric solution. Deep expertise in emerging technologies and the integration of these technologies with existing infrastructure keeps ENS poised to design, test and build networks capable of delivering robust, secure and dynamic data and media content. Ens solutions revolve around open standards of interoperability suited to the development of joint tactical platforms of communication.
